ELABORATION PROCESS

An exceptional wine made from overripe grapes, winter-harvested at between -8C and -12C, thus promoting desiccation and a richer, more concentrated must. Whereas 100 kg of grapes usually yields 70 à 75 L of must, this is reduced to only 12 to 15 L of our precious ice wine.

SERVING TEMPERATURE 8° to 12°C

RECOMMENDED STORAGE 5 to 7 years

ORIGINAL VINTAGE 1997

At cocktail hour or with foie gras canapés, goat cheese and peach jelly crepes, fruity salad, strawberry rhubarb, pear or apple pie.

REVIEWS

"In the ice wine produced in Dunham by Charles-Henri de Coussergues, there is always this exquisite union of richness and smoothness that lines the mouth, coupled with an almost tannic structure and a thread of acidity that raises the wine, making it almost tonic. The rich and deep flavors linger on the finish and the wine is deliciously harmonious. Exquisite!"
